Fuji Xerox
Xerox
The Business of Xerox
Since the early 1990s, Xerox has been boldly reinventing itself from a predominantly black-and-white, liq What is Xerox's stock price? 15 color and document solutions company. Xerox offers unrivaled expertise in the production and management of documents: color and black and white, paper and digital, across networks, for the small office/home office or the global enterprise.
Xerox and its partner, Fuji Xerox Co., Ltd. of Japan, offer the broadest array of document products, services and solutions in the industry: copiers, printers, fax machines, scanners, desktop software, digital printing and publishing systems, supplies, and comprehensive document-management services -- from the running of in-house production centers to the creation of networks.
